

Job Description

Role: Front End Developer – Permanent Contract
Reporting to: Lead Developer

Overview:

VICE is a global youth media company and the industry leader in producing and distributing the best online video content in the world. Launched in 1994 as a punk magazine, VICE now operates out of 36 countries, and has expanded into a multimedia network, including the world's premier source for original online video, VICE.COM; an international network of digital channels; a television & feature film production studio; a magazine; a record label; and a book-publishing division.

VICE's digital channels include VICE Sports, a sports channel; MUNCHIES, a food channel; VICE News, a dedicated news channel; Noisey, a music discovery channel; The Creators Project, dedicated to the arts and creativity; Motherboard, covering cultural happenings in technology; THUMP, focusing on global dance music and culture; Fightland, a channel dedicated to the culture of MMA and Broadly a female focused channel. VICE acquired British fashion publication i-D in 2012 and re-launched i-D's digital presence at i-D.co, a video-driven fashion site. In 2013, VICE launched a news-magazine series on HBO titled VICE. The Emmy Award-winning series just completed its second season; seasons three and four to air in 2015 and 2016.

Role:

VICE needs a front end developer to join its global systems team, working on a very fast moving agile project in a dedicated team. You will initially be focused on building a front end framework to package up for all of our business web based apps and will continue to work with the business systems engineering team. This is an excellent opportunity to be involved during a period of rapid expansion. The business systems team works with every department of the company around the world developing applications essential for the day to day running of a large media company.

Skills and Experience:

- Good level of skill with css and experience with pre processors.
- Knowledge of core javascript and experience with frameworks such as React, Angular, Vue.js, etc.
- Experience with RESTful APIs, SOAP and web services are a bonus.
- Experience developing within a team using Git.
- Ideally have experience with Unix and the AWS ecosystem.
- Nice to have: knowledge of PHP and MVC frameworks such as Laravel/Symfony

Personal Attributes:

- Strong attention to detail.
- Problem solving skills.
- Ability to work under pressure in a fast paced environment.
- Strong self-sufficiency and ability to set own milestones.
- Ability to take responsibility for problems.

Other:

- To undertake such other tasks including general administrative duties as may be required from time to time
- To be an ambassador for the business at all times.

To apply please email a brief cover note and CV, with the reference “**Front End Developer**” in the subject line to: ukrecruitment@vice.com. **Please include your notice period and salary expectations in your application.**

Closing date for applications is 31th May 2016.

We look forward to hearing from you!

If you do not hear back from us within one month of applying then unfortunately your application has been unsuccessful. Thank you once again for applying and we wish you success in your future career.
